

## Reminder of T.R.G Meeting

215

on  
"Rival Machinery Proposals"

Wed. Nov 8th. 5.30 p.m  
116 Hotham St. East Melbourne.

5/7

## NEWS FLASHES (No 5)

Nov. '67

(Too irregular to be an Irregular---but still for  
members of T.R.G only---not for publication)

1/5/7

1. Hamer nearly has ready Bill based on T & C.P Report
2. The MMBW is attacking the TCP Report.
3. City of Camberwell has called meeting for reps. from all  
Councils Nov 16th (to back MMBW ?)

2/5/7

### One Member's Opinion

The MMBW attack is a tendentious one misrepresenting the TCP report  
and calculated to panic local Councillors into opposition on Nov 16th

Yet--- the TCP machinery retains the MMBW and local Council functions  
as of now, but adds ~~stat~~ "strategic planning"

### The Essence of ~~stat~~ Strategic Planning

is organisation to co-ordinate all public departments and  
authorities in "framework" planning of a character which has not  
yet existed (Read p.42 and p.44 TCP report)

Such co-ordination is supported by the April 8th THC-ACSPA  
Seminar---and surely too by TRG members ?

### The Danger

is that the Labor movement narrows its sights and attacks the  
Bill because it emanates from a Liberal Minister. If it does it will  
be unwittingly helping conservative vested interests using the self-  
interest of MMBW conservatives to defeat a measure which may purport  
to put an end to irresponsible ~~non~~ non-planning at State level.

Amplification of the above---come to the meeting 8/11/67  
Other Angles ? Come to the meeting.
